

Dots & Squares

Two (or more) players take turns to join two adjacent dots with a straight horizontal or vertical line.

If a player completes the fourth side of a box they initial that box and must draw another line.

Lines can not cross pictures. This means that some boxes around pictures can not be completed.

When all the boxes have been completed the winner is the player who has initialled the most boxes.

HOUSE RULE (OPTIONAL)

As an optional house rule the player with the most amount of completed boxes around a picture gets an additional 10 points.
